GIRL BURIED IN POND IDENTIFIED AS IMMIGRANT

Detectives Take Fingerprints of Victim to Check Assurance of Landlady.

NEW YORK, Oct. 26.—Mrs. Elizabeth Richard, of Jersey City today identified the legless body of a woman found Saturday in a pool in Long Island City as that of Bertha Baker, or Becker, who lived with her two years ago.

A design of the German Iron Cross and the initials "B. B." had been tattooed on her right leg above the knee, Mrs. Richard told the police, and she thought this might have been the reason why the legs had been severed.

Mrs. Richard said the girl had come to America from Cologne, Germany. She appeared at her house in company with her husband and baby and asked for lodging, Mrs. Richard said. The man was a boatman.

After leaving her house, Mrs. Richard said, the girl lived in Hoboken, where she was arrested, August 18, 1919.

She said she would bring her husband to New York today to view the body and corroborate her identification.

To check up on Mrs. Richard's statements, detectives were sent to Hoboken police headquarters for fingerprint records to be compared with the prints of the murder victim.

At the same time other detectives were busy on Staten Island seeking to determine if a stained nightgown, a butcher's knife and a battered hat found in the underbrush near a linoleum factory had any connection with the Long Island City mystery. As the body had been wrapped in oilcloth the theory was advanced that the covering might have been manufactured by the Staten Island factory.

Still more detectives had been dispatched to Inwood, Long Island, on a clue furnished by discovery of a laundry mark on a shirt wrapped about the victim's body. Police indicated an arrest soon might be expected.

PITTSBURGH, Oct. 26.—Workmen cleaning out a 500-gallon oil tank in the yards of the Pressed Steel Car Company in McKees Rocks today found, in the sediment at the bottom of the tank, the skeleton of a man.

The tank had not been cleaned since 1917. It is believed the skeleton is that of a workman who disappeared about three years ago while at work about the tank.
